AJA MiniConfig Release Notes—v2.7.0

Control software for AJA Mini-Converters

General

This release is recommended for all AJA MiniConfig software users. It adds support for new AJA Mini-Converters, as well as improvements and fixes to other Mini-Converters supported by the MiniConfig software.

New V2Digital and V2Analog Mini-Converters Supported

V2Digital

V2Digital allows 10-bit conversion of component or composite analog video to SDI at either SD or HD resolutions utilizing a full 10-bit data path and 2x oversampling for facilities needing to integrate analog output devices such as cameras and tape decks into digital workflows.

V2Analog

V2Analog performs high-quality SDI digital to component or composite analog conversion at either SD or HD resolutions with a full10-bit data path, making it an ideal solution for integrating analog input equipment such as monitors and tape decks into digital workflows.

Improvements

4K2HD

- Fixes issue where 4K2HD would lock up and require a power-cycle if used in 4xSDI 4K mode with an SD format video input.

Products Supported In This Release

Hi5-3D	HDP2
Hi5-3G	ROI
Hi5-4K	UDC
4K2HD	V2Digital
	V2Analog

Installing the Latest Software

AJA Mini-Converters come from the factory with pre-installed firmware. To ensure that you have the most current version of software/firmware available, please refer to the AJA website. To get the latest version, visit the MiniConfig page on the AJA website:

http://www.aja.com/en/products/mini-converters/mini-config-software/

Select the Mac or Windows icon to download the correct version of MiniConfig for your operating system.

Previous versions of MiniConfig are also available in the Software Archive section, if needed.

Firmware Upgrade Procedure

The manual provided with your AJA Mini-Converter describes the firmware update process; please refer to it in order to properly update your firmware. The product manuals are also installed with the MiniConfig software in the `Documentation` folder in your start menu.

Individual product manuals are available online for download from the Mini-Converter section of the AJA website:

http://www.aja.com/en/support/
