

# **Release Notes—KONA LHi version**

## **1.1.1**

### **General**

If you are installing your KONA hardware into a computer that has previously had another video capture card or drivers, we recommend running the AJA KONA Conflict Checker utility BEFORE installing the KONA software. The AJA KONA Conflict Checker will help you identify old drivers or software files that need to be removed before installing the new software. Also, please read the “ReadMeFirst.PDF” document on the installation CD, particularly if you are installing for the first time.

### **In This Version**

- Improved embedded audio output quality when operating with PAL formats.
